Arrive the night before the day you set off rafting, and you'll be greeted with a hot meal in the form of a potjie or braai and warm hospitality around the campfire. The perfect way to unwind after a hectic week. Your long-awaited river adventure gets under way before 08h00 the following morning. You and your equipment will be transported to the starting point in a 4x4 truck. There, qualified river guides will instruct you on the basics of river rafting and certain safety procedures. From there the group, under guidance of your qualified river guides, will continue with the flow of the river and rush of the rapids till nightfall. Our tented camp awaits and when we are all settled in, stories are exchanged around the campfire and a scrumptious meal is prepared by our guides underneath the stars. The next day sees more of that free-wheeling-fancy-feeling, with stops for lunch and refreshments along the way. Unfortunately, like all good things, it comes to an end sometime between 16h00 and 18h00 when you'll be collected and safely returned to base camp. Guests generally depart the camp about 19h00 after a warm cup of coffee!
